To Whom It May Concern:

I am writing to recommend Oliveri Architects for any architectural needs you might have. I have worked with Joe Oliveri and his firm on thirteen projects over the last fourteen years. I am constantly impressed by his entire firm's professionalism and attention to detail. As a General Contractor, I truly appreciate the efforts and energies that Joe and his people expend during the design process as this enables a much smoother construction process.

I have worked with Oliveri Architects on a variety of projects including medical and commercial projects. I have seen Joe work with his clients and have witnessed first hand their satisfaction with his performance.

In closing, I once again offer you my unreserved recommendation for Oliveri Architects and I am convinced that your experience with them will be as successful as my experiences have been.

Sincerely,

Robert S. Bollenback
